### Justification and Disposition

If specimens of the proposed types already exist in a repository, explain why additional collecting is necessary:

Summarize any mitigations associated with these collections:

Indicate the final disposition of these collections (select all that apply):

- Temporarily captured or handled and then released undamaged in place  
Will be destroyed through analysis or discarded after analysis  
Permanently retained (Provide repository information. Unless deaccession agreement is reached, NOAA retains ownership of retained specimens.)
